Notification on impact of the earthquake struck central Myanmar

The earthquake that occurred in central Myanmar on March 28, 2025, has caused serious damage not only in Myanmar but also in Bangkok, Thailand, which is far from the epicenter.

We extend our heartfelt condolences to all those affected by the earthquake.

Regarding impact of this earthquake on our business operation, no human casualties or damage to the production plant buildings or production equipment have been confirmed at our production and sales base in Thailand, Meltex Asia (Thailand) Co., LTD.

Additionally, there are currently no issues with the procurement of raw materials, and operations are not affected.

If any matters arise that significantly impact on our business activities in the future, we will promptly inform you.
